# Love of a Soldier

I look into his eyes  
Before one last goodbye  
Another kiss on the lips  
And that's it

Now you're leaving  
You're leaving  
I won't see you for a year  
I don't even know if you'll come back here

One year in Iraq  
And I'm not sure you'll come back  
No matter how many times I wish you luck  
I still miss you so much

Everyday I think about you  
And I'm sure you think about me too  
I fell in love with a travelling soldier  
After you go there will be no other

Will I ever see you again?  
Will you come home in the end?  
Everyday I live in uncertainty  
Despite that you tell me not to worry

Will I have to carry your coffin?  
To the cemetery, to be buried and forgotten  
You'll be one of the many  
But you'll always be a part of me

I will always remember you  
No matter what the world puts me through  
You are my hero  
And I will always love you so

# The Secret

I have never seen your face  
Is it really a piece of such disgrace?  
I've only seen you from behind,  
What is this secret you try to hide?  
But the secrets that you hide seem more like lies being covered up  
Such as this  
Keeping your mouth shut  
Because so many things just don't work out when you're not around  
We don't seem to click like we used to and it's driving us further apart  
It hurts me in the heart  
Roses are red, violets are blue  
I did my best at loving you  
This filthy little secret  
Do you trust me enough to keep it?  
Your life is a beautiful denial  
On which you shall stand trial  
Behind your beautiful eyes  
Tell me,  
What is this secret you try to hide?

# Once Loved

It makes me sad to see you like this  
It angers me that you have to do this to yourself  
I'm sick and tired of having to watch you pass in front of the house  
Almost unable to walk a straight line

All I seem to see are the scars on your arms  
And the marks around your neck  
Your discoloured lips  
Your pale white skin

It kills me to see you do this  
I don't want to attend your funeral  
But it seems like I'll be holding your little hand in your coffin soon  
Tears come down my cheeks every time I think of you

I've seen the miracles you could make  
And now all I can see is all the pain you have to take  
It makes me sick to see you like this  
Your smile used to tell me that you were doing so well

Now the track marks on your arms have another story to tell  
I used to see your eyes shine in the sunlight  
Now you never leave the darkness  
How could you go back to this?

Destiny was calling your name  
You had the whole world at your feet, waiting for you  
Now you're back to chasing delusions with fishing nets  
You're so close to breathing your last breath,

I can't seem to let you go but our friendship was something I won't soon forget  
You were great  
Pleasant to be around  
I hope the ones on the other side take you into their arms

And give you all the love you could ever have beyond this world  
I'm sad to see that you have to end like this  
But I guess now there's nothing more I can say

Because I don't know when it's going to be your last day

But until then I'll make sure to tell the girl on the other side of the mirror  
That I once loved her

# I Hate

I hate it when you're here  
I hate it when you're gone  
I hate the way I need you when you're not around  
I hate the way I need you when I don't know where you are

I hate it when you say you love me  
I hate it because I know you don't really mean it  
I hate it when you say you'll always be there for me  
I hate it because we both know you're not

I hate that I love you  
I hate that I do  
I hate that no matter what I can't hate you  
I hate the way you comfort me

I hate the way it never lasts  
I hate the things you say to me  
I hate the way I can't help but believe them  
I hate the way you hurt me

I hate the way I hurt myself  
I hate the way the blame always ends up on me  
I hate the things you do to me  
I hate the happiness that comes with them

I hate missing you  
I hate it when you ignore me  
I hate that I can't tell you how I feel  
I hate that you have better things to do

I hate that I'm your last priority  
I hate that I feel this way  
I hate that I have to live like this  
I hate that I'll have to replace you

I hate making decisions because you can't step up  
I hate the way you make me smile  
I hate the way you always help me when I'm in denial

I hate that you then have to go away

I hate that I have to miss you

I hate that I have to love you

I hate that it feels like you were never here

I just hate everything

I just hate it all

# From Life To Death

My bones tremble  
My heart beats faster  
I cannot breathe  
I feel my temperature rise

A crime of fate  
The breath of life  
Like hands around my neck  
There's nothing I can do

Collapse to the floor  
Everything you thought you knew  
Life is slipping away  
You are no more

My heart falls to pieces  
I'm out of breath  
My eyes fill with water  
The struggle is over

Dust to dust  
Ashes to ashes  
From life to death  
I will not forget

# Calling All Scumbags

Sitting in my dark place alone  
I wonder what went wrong  
No one seems to know  
The reason you have no soul

Stick a knife right through your throat  
And let someone else take oath  
Just make sure you get there first  
For whatever that it's worth

Calling all scumbags  
Broken promises and filthy little lies  
Let the fire ignite in your eyes  
And your sick twisted smile

I'm calling all scumbags

You took the breath right out of me  
You left a whole where my heart should be  
I'm sick and tired of being angry  
I want you to drown in my misery

Sadness and hate  
Two emotions you can't replace  
I just wish I could slap you in the face  
For all the times you felt without a trace

Calling all scumbags  
Broken promises and filthy little lies  
Let the fire ignite in your eyes  
And your sick twisted smile

I'm calling all scumbags

Too cowardly to admit it  
You worthless piece of shit  
Go and slit your wrist  
You're one scumbag I will not miss

Now it's all coming clear  
That I don't need you here  
And in this world around me  
I'm glad you disappeared

Calling all scumbags  
Broken promises and filthy little lies  
Let the fire ignite in your eyes  
And your sick twisted smile

I'm calling all scumbags

Remorse should have shown  
But oh no your heart is made of stone  
Beneath the teeth hear the groan  
You can die and rot alone

Let the salt enter the wound  
Your end is coming soon  
You don't know what I can do  
No you don't have a clue

Calling all scumbags  
Broken promises and filthy little lies  
Let the fire ignite in your eyes  
And your sick twisted smile

I'm calling all scumbags

Now don't try to hide  
Now that the world is mine  
When everything you are falls behind  
I want you to choke when you swallow your pride

Light the fire and walk away  
One day you will pay  
Until then don't make the pain go away  
No you scumbag make it stay

Calling all scumbags  
Broken promises and filthy little lies  
Let the fire ignite in your eyes  
And your sick twisted smile

I'm calling all scumbags

This time you won't be heard  
You greedy little bastard  
You will get what you deserve  
You greedy little bastard  
You will get what you deserve

# Murderous Poem

The only thing that would make today any worst  
Would be driving away in a hearse  
My anger boils deep inside my veins  
How do I get it out without causing pain?

Inside my basement I will hide  
To make up this mind of mine  
On whether I should put a bullet in my gun  
Or just forget about this and run

My inner demons I shall seek  
So my mind can have peace  
At last you will be gone forever  
And I shall sleep much, much better

Beside my bed my shotgun I will keep  
So I'm safe at night when I sleep  
And if my house, I find you inside  
The coroner's van will be your next ride

# Insanity

Insanity  
Crawling into me  
Into my head  
I'm wishing I was dead  
Thoughts fill my brain  
Driving me insane  
Ideas of suicide  
And ways to die  
Corrupting my mind  
I'm going insane  
I can't set things straight

# Shackles of Love

So many thoughts keep spinning around my head  
The good, the bad and the unknown  
This loneliness and this desolation  
Is the equivalent of sitting in my head all alone

Sometimes I wish that you could just leave  
Just leave and leave me alone  
Other times I'd sew our souls together

All that is left of you now are the scars on my heart  
I swear I will tear it all apart!  
I carved your name into my arm  
Promising you that I would never do you any harm

I carved your name into my soul  
Promising you that I would never let you go  
But you're the one that let go  
You were the only good in me

Now living with myself is all I have.  
Do you know what its like  
To look at yourself, paralyzed?  
This soul is just no good

So I can beg you to save me for all that I am.  
Or beg you to save me for the fuck of it.  
I know my life will end  
But I won't give this life away again  
You broke my trust, shattered my existence

So lift up my sleeves and see the pattern of my cuts  
My flesh is all I have.  
This life is not enough!  
You can say that I'm so clever  
Whatever  
I'm done with theses endeavours

I'm needing no one's help,

I'm needing only you  
Sometimes I can still feel your presence

It still lingers here.  
Some days I get so lonely  
That the loneliness won't leave me alone  
Sometimes it hurts so bad that I can't breathe  
I can only tell myself that you still love me

But I don't believe my own lies  
Like I believed yours  
Don't you miss the way we were?  
We promised one-another that we'd love each other forever

Forever didn't last very long  
I guess that in the end it didn't really matter  
It didn't even matter no matter how hard I tried  
You slipped away, and I don't know why

Every time I try to live without you I feel dead  
But I can't breathe when I'm with you  
So what are we really doing here?  
You hesitated  
And now I wish that you would just go away

Just leave me here forever in the dark  
Was this love just a waste of time?  
I guess you'll never get to see my face again  
All the miracles you traced

I can't explain what its like  
To wonder if I'll ever cross your mind  
I loved you so much it hurt  
For whatever that it was worth

This can't be heaven, it feels like I'm hell  
Looking out the window into the blowing snow  
I never thought that hell could be so cold

Just another helpless plea, I beg you  
I will love you, forever  
The end  
Just don't leave me here again

I've seen my world change  
And had to watch it go back to where it came  
I guess I was just an alternative  
Just another option until the past came back  
Now I'm in second place for a second chance

I'm tired to chasing delusions  
All I need is someone to believe in  
You brought me back to life  
Only to let me die

They say that the higher you are, the farther you fall  
You seemed too good to be true  
And I guess you were too

But why pull me up and then tear me down?  
I gave you all I had  
I gave you all I had to give  
I guess I did it all for nothing because now that you're gone away  
You didn't even say goodbye to me  
Hope is lost  
Now all I can do is drown away in my own misery

I keep telling myself that one day you will burn  
That one day you will get what you deserve  
Some people never learn  
Sometimes I just want to make you hurt  
Like the way I hurt  
I know its sick but it makes me feel better

Sometimes I wish I had never ever met you at all  
But all I can say now is  
Don't put your life in someone's hands that bound to steal it away  
We were supposed to burn the world together  
But you were the fire  
And I'm the one who burned

All I've ever said was the truth  
And yes I really loved you  
You must not forget that I hurt too  
You said such sweet words  
Unlike anything I had ever heard

But I guess it was just a cover-up for corruption and shame  
You burned down my perfect little world.  
I never thought I was crazy  
Until you showed up  
I never thought I could love, never thought I could trust

You proved it to me only to prove it to yourself  
That you're always better than everyone else  
The days can go on forever  
And I will never leave your side  
Nothing could ever bring me back to life  
So save your last goodbyes

I used to feel so loved  
Now I'm just screwed up  
You shouldn't blame yourself because I guess I deserved it  
Although I never thought I'd believe it  
Theses millions of memories make up my millions of shattered dreams

I guess that even the brightest light will fade away to black  
I guess my love just wasn't enough  
Forgive me if I do not understand

One day we'll be lying in the earth  
Side by side  
But until the end there's only one thing you should know  
Je t'aimerais jusqu'à la fin du monde

# Until the End of Time

I'll be long gone and rotting in hell  
Before you say "I love you" to someone else  
I promised I'd love you until my death  
And even after that I won't be done yet

So if you die before I do  
Somebody better tell the coroner he'll have two  
Around my neck I'll wear a hangman's noose  
Because I never want to be away from you

The moment I saw your pretty face  
I knew it was you and no one else  
In that same moment we sealed our fate  
I promised to never leave you by yourself

So boy you better never tell me goodbye  
Because I won't leave you even when I die  
I want to have your body buried next to mine  
I want to be with you until the end of time

# Promise

If It takes forever  
I'll find you no matter what  
The ends of the earth

# The Complete Unknown

There's one place that I'll never call my home  
And that's the very bottom of your soul  
In my life you left an empty hole  
I guess there are some things I'll just never know

Who am I to take the blame?  
You're the one with all the shame  
This is just like a burnt out flame  
I guess things will never be the same

I learned the things you never showed me  
Became all the things you'd never be  
Maybe one day you will see  
All this pain and catastrophe

I took the chances you'd have blown  
You're the one who left me all alone  
So many of our stories will remain untold  
And you remain the complete unknown

# Dear Father

I address this letter to my dear father  
The complete unknown  
I guess it's better that you just don't bother  
All your truths will be left alone

I'm the daughter you can't hide  
Pray for your life before you pray for mine  
I'm just the forgotten child  
The one you left behind

So many years have been ignored  
You've been gone without a trace  
I'm getting to knowing that  
You're just a name without a face

A father without a son  
Is like a bullet without a gun  
But what about a father without his daughter?  
I guess you can't spell manslaughter without laughter

You were mean to make it hurt  
Make it all disappear into the dirt  
All the things I had to go through  
And it's all because of you

Do you feel any shame?  
Because I feel a lot of pain  
Take the time to take my breath  
I will end where I began

If you're out there somewhere  
I don't know if you care  
It seems like you don't  
So you remain the complete unknown

All we had, gone forever  
Things that you said would never be  
Living without you don't bother me

Yours truly,  
Your daughter

# The Red

There's nothing that's gonna stop me  
There's nothing that's gonna stop me  
Insanity  
Insanity

My blood drips on the floor  
It's red  
Back where I was before  
It's all in my head  
Thoughts of suicide  
Hiding all the tears I keep inside

Insanity  
Insanity  
Crawling into me  
Into my head  
All I see is red  
I just wish I was dead  
It's all red  
It's all red  
All I see is red  
It's all in my head  
Red

The calm  
Before the storm  
Thoughts  
Of suicide  
So many ways to die  
Forget about me  
You don't mean anything to me

Insanity  
Insanity  
Crawling into me  
Into my head  
All I see is red  
I just wish I was dead

It's all red  
It's all red  
All I see is red  
It's all in my head  
Red

Your driving me insane  
Your driving me insane  
Corrupting my mind  
Corrupting my mind  
Look inside

It's all red  
It's all red  
Inside my head  
You can't stop me

Look at the red  
Coming down my arm  
All the scars  
All the scars  
From when you broke my heart

Insanity  
Insanity  
Crawling into me  
Into my head  
All I see is red  
I just wish I was dead  
It's all red  
It's all red  
All I see is red  
It's all in my head  
Red

The red creeping into me  
The red  
Is all that I see  
Give into the red  
Give into the red  
Give into the red
